https:/www.linkedin.com/in/blasnunez

I am passionate for web development, bringing forth motivation for programming, and working on projects. I consider myself responsible, easygoing, ambitious, technologically, and culturally adept. I enjoy playing sports, leading teams, and acquire new software techniques. I currently seek a full-time job opportunity where I can deliver, dive more into my full-stack skills and grow professionally over time.
You can look on my works in the following portfolio: https://blasnjacobo.github.io/portfolio

Professional Experience

MAR 2024 – CURRENTLY

Co-founder Flixprop & freelancer
- At www.flixprop.com, we've shifted from Shopify to a React-MongoDB setup for a more engaging user experience. Our new platform boasts sleek design, enhanced interactivity, and efficient data management, reflecting our dedication to providing the best in TV and movie merchandise.

NOV 2022 – DIC 2023
Vancouver, Canada

Front-end Developer
Metal And Wood Products Ltd
- Leveraging ReactJS to build dynamic and responsive user interfaces, implementing state management solutions, and integrating with RESTful APIs.

FEB 2021 – FEB 2022
Guadalajara, Mexico

IT Consultant
Tata Consultancy Service
- Providing consultancy services to USAA by checking logs, troubleshooting Customer Information in Databases, and tracking new software releases.

FEB 2020 – JUL 2020
Venlo, The Netherlands

Automating the process of counting tree frogs (Inter)
Waterschap Limburg ft. Fontys
- The objective of this project was developing a low-cost system that counts tree frog males automatically with a higher accuracy than the methods that are currently used.

Education

JAN 2022 – FEB 2023
Vancouver, Canada

International Business Management – COOP Program
Cornerstone International Community Collage of Canada

AUG 2016 – DEC 2020
